

Made In Tennessee

Celebrating and Connecting Our Manufacturers

The Benefits

Complimentary Profile on Made in Tennessee Directory
Your profile provides consumers with an overview of your company and contact information.

Manufacturer Spotlights

We will be sharing multiple videos each year that highlight some of our participating manufacturers. We will also highlight a company each week on our UT CIS social media platforms.

Use of the Made in Tennessee Logo

Display your pride in being a Tennessee manufacturer with the Made in Tennessee logo. You can print or engrave it on your products, packaging, signage and more.

The Program

Made in Tennessee supports Tennessee's manufacturing community by raising awareness of the people behind our manufacturers and the products they make.

The Made in Tennessee program, started in 2013, is a no-cost membership program hosted by the University of Tennessee Center for Industrial Services (UT CIS).

The program provides registered members a profile in a manufacturing directory on www.madeintn.org, through which other businesses and customers can locate information about products and services. The program's members also have the ability to utilize the service-marked Made in Tennessee logo on their products and packaging.

Only Manufacturers with NAICS codes 31-33 (excluding 311 and 312 food producers) with a production facility in Tennessee can register for the program. If your manufacturing facility qualifies, visit www.madeintn.org/register and enroll your company today! If you have any questions, please email madeintn@tennessee.edu.

Who Is Eligible to Join?

Tennessee manufacturers with a NAICS code beginning with 31, 32 or 33.

Is There a Membership Fee?

No! There is no cost for the participating manufacturer.
